### A little more about the PACWEST

The Pacific Western Athletics Association (PACWEST) is the governing body for collegiate/institute athletics in B.C. Today there are 10 PACWEST member institutions located across the province. A total of 58 teams compete in five sports for the right to represent BC at the CCAA Nationals.

The PACWEST believes that collegiate athletics should be an integral part of a balanced, holistic, educational program of any institution. It teaches lifelong values of teamwork, discipline, commitment, perseverance, fairness, and respect. Statistics show that student athletes are consistently strong academically, develop positive lifestyle traits, and contribute to community spirit and growth.
